

WRIGLEY'S

Friends!

Wrigley's is a constant friend to teeth, breath, appetite and digestion.

The refreshment and comfort of this toothsome, long-lasting confection is within the reach of everybody.

Its benefits are many—its cost small. That's why it's used around the world. Nothing else can take its place.

Chew it after every meal

WILL HOLD KAISER TO HIS PROMISES

Long Branch, N. J., Oct. 9.—The German government will be held to the complete fulfillment of its promises to the government of the United States," President Wilson said today in a statement to the American people upon the German submarine attacks off New England.

The statement follows: "The government will, of course, first inform itself as to all the facts, that there may be no mistake or doubt so far as they are concerned, and the country may rest assured that the German government will be held to the complete fulfillment of its promises to the government of the United States.

"I have no report to question their willingness to fulfill them."

"(Signed) Woodrow Wilson."

When he saw Ambassador Bernstorff, President Wilson planned to take up in full the latest developments in the submarine issue between the two governments.

In official circles the situation was regarded as fraught with ominous possibilities, but pending definite word from Bernstorff and from official government reports, no conclusions were ventured by officials here.

Ambassador Bernstorff saw the president about 1 o'clock, arriving here earlier than was expected. He succeeded in avoiding the newspaper men.

U BOAT ATTACKS STIR WALL STREET

New York, Oct. 9.—German submarine activities off the New England coast started a near-panic in Wall street today, causing a break in prices on the New York stock exchange of three to 16 points within a few minutes after the opening.

Thousands of small speculators who have been playing the booming market for four weeks saw their accounts wiped out as prices tumbled before an avalanche of selling orders. U. S. Steel dropped four to seven points on the first sales and soon added another point to its loss, selling at 108. Marine preferred showed a 13-point loss at 106 1/2 at 10:30 o'clock. Some recoveries had been made at 11 a. m.

Republic Steel dropped 16 points to sixty and within a few minutes made a complete recovery to 76. Within an hour U. S. Steel rebounded four points to 112 and Union Pacific regained 5 1/2, selling at 147 1/2. Steel and equipment shares generally followed these leaders.

Sponge Growth.

Fragments of sponge transported to another locality heal in about three months, when they again begin to grow. Irregular bits soon become spherical and rapidly increase in size, adding twenty-five times their own value in the course of four or five years. The growth is, of course, slow especially during the first year, mainly because of the necessity for holding the wound closed by the tearing off of the fragments from the main body for transplanting.

Baseball and the Marines.
Americans are intensely the best bomb and grenade throwers in the world and are capable of waging wonderful trench warfare in case of hostilities, say United States marine corps officers. "The average American youth early learns to throw a baseball with speed and accuracy, and it is because of that we, as a nation, are especially fitted to wage the modern war of the trenches. Baseball is encouraged at all our stations, and the skill displayed by marines—even untrained recruits—in the bomb and grenade throwing practice is really remarkable," said a marine corps officer.

Ancient Preservation of the Dead.
Herodotus gives a good description of the manner in which the early Ethiopians preserved their dead. Having thoroughly dried the corpse, they plastered it over with a paste made of gypsum and then painted the face and exposed parts so as to make them look as natural as possible. Dead bodies served in this manner remained intact for hundreds of years.—London Globe
